HOBBIES

☐ Exploring advancements in web technologies
☐ Participating in coding challenges and hackathons
☐ Designing creative layouts and animations

CAREER OBJECTIVE

Motivated front-end developer eager to contribute to impactful projects and collaborate with experienced professionals. I am excited to grow my technical skills, gain practical experience, and innovate in the field of web development.

EDUCATION & CERTIFICATION

B.Sc. in Software Engineering
Chrisland University, 2027
GPA: 4.28

Responsive Web Design Certification - freeCodeCamp [Oct 2024]
JavaScript Algorithms and Data Structure - freeCodeCamp [Nov 2024]

ASPIRATIONS & PROJECTS

• Storm **Project**
Currently developing **ResoBridge,** a resource allocation platform designed to streamline processes in universities. Excited to create impactful solutions that integrate modern web technologies into real-world applications.

• Freelance **Contributions**
While I do not have formal work experience, I have taken on small projects for personal development and learning, including creating responsive web designs and mock applications to enhance my problem-solving and coding skills.

TECHNICAL SKILLS

☐ Languages **& Frameworks**: HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS
☐ Tools **& Platforms**: Visual Studio Code, Git/GitHub, Figma, Chrome DevTools
☐ Key **Competencies**: Responsive Web Design, Cross-Browser Compatibility, Debugging & Problem Solving, Accessibility Standards (WCAG)
